

Flying Banner

FLYING BANNER

The Flying Banner is an extremely versatile marketing tool that comes alive through the incorporation of movement. It rotates smoothly in the wind and has no fly edge. Thus it will not flap aimlessly. This banner will constantly display your company's message from any angle.

The Flying Banner is available in 3 sizes – 8, 11 and 14 feet in height, with single or double-sided sleeve. † *

FEATHER BANNER

The Feather Banner represents the classic square-cut banner. It is perfect for roadside and outdoor advertising. The larger surface area allows for more exposure of your product or service.

The Feather Banner is available in 3 sizes – 8, 11 and 14 feet in height, with single or double-sided sleeve. † *

SAIL BANNER

The Sail Banner utilizes a horizontal arm which creates a large graphic area for maximum visibility. The banner's ability to rotate with the wind ensures that the graphic will always be visible from any direction. It is the ideal alternative to regular flags, as this banner lasts longer and is easily repositionable indoors or outdoors.

The Sail Banner is available in 3 sizes – 8, 11 and 14 feet in height, with single or double-sided sleeve. †*

POP OUT BANNER

The Pop Out Banner is the perfect alternative to the traditional A-frame design with much more printable surface area. The Pop Out banner is one complete unit allowing it to be erected and moved with ease.

The Pop Out Banner is available in 3 configurations – 2-sided horizontal as well as 3 and 4-sided vertical, standing banners. A variety of sizes is available in each configuration and a custom carry bag is always included.

KITE BANNER

The Kite Banner is our newest product. This banner swivels in the wind and has no fly edge, ensuring greater durability.

The Kite Banner is available in 3 sizes – 8, 11 and 14 feet in height, with single or double-sided sleeve. †*
